Table 1A - Hospital Pricing of Top 2012 Inpatient Diagnoses - Gross Charges

These are hospital gross charges only. Physician charges are NOT included. Charges displayed include each community hospital's top inpatient diagnoses by volume for the period of 10/1/2011 to 9/30/2012. Because each patient receives treatment based on their individual needs, the gross charge to each patient will vary. Hospital System Number of Cases and Average Gross Charges include all hospitals. For individual hospitals, charges for diagnoses having fewer than 15 cases are excluded. Blanks in the table indicate that the hospital has fewer than 15 cases for that diagnosis or the hospital does not admit patients with that particular diagnosis. The hospital, however, may admit patients with similar diagnoses under a different code which may not be shown. Treating a given diagnosis may entail more than one procedure. Please call the hospital for more information.
